

The Administrative State has a Temper Tantrum. Open Letter to Dr. Robert Malone MD MS. Targeted Individuals

Hello Dr. Malone,

Thank you for filling the huge gap at this time for factual information in your role as Medical Journalist. I forward your Substacks to a group of over 100 people.

This group represents an increasing common occurrence, as the title of Dr Robert O Young's below article describes, "... The Next Plandemic Coming Soon." Life for this group is threatened in ways you may not be aware.

Some time ago the US Army coined the term "targeted Individuals" to describe citizens and civilians targeted for torture by nonconsensual microwave weapons and bio weapons, i.e. torture programs run by Unacknowledged Special Access Programs.

You will not, and should not, take anyone's word about this.

Kindly however consult the NSA whistleblowers, attorney, scientist and businessman copied here and review their body of evidence online. The term targeted individuals is a misnomer for tortured and killed individuals.

Your realization about the narrative of the national press mirrors the understanding of many Americans. The next realization often encompasses the secret, continuous torture of citizens worldwide. As you have shown that Covid vaccine death and injury is wrought with coverup and mal information, the same can be said about the targeted destruction of millions by an induced Holocaust upon innocents from military grade weapons. Weapons torture is easily accomplished by formally categorizing innocents as domestic terrorists in order to torture them with impunity.

How Does This Happen? Under cover of the 2002 Patriot Act, fisa courts, fusion centers and NGO gangstalkers illegally forsake due process and Constitutional rights by naming anyone a domestic terrorist. It is estimated that 70% of targets are women.

The subject matter experts cc'd here are examples of those involuntarily entered into torture and/or targeting programs. Can you imagine being hit everyday of your life by directed energy weapons? The burn photos in the William Binney, Activistpost 2020 article below is evidence ignored by media.

The situation is so dire some are campaigning Mikki Willis and Del Bigtree to film "Plandemic 4: The Silent Weaponized Holocaust Against Citizens." Microwave weapons and bio weapons have replaced the gas chambers worldwide.

Ask, "How long does it take to kill a person by constant microwave radiation?"

"How many death certificates that state Cause of Death Unknown can be traced to a targeted/tortured Individual?" As in the case of the March 2022 murder of PA civil engineer, Helen Csorba, tortured by pulsed microwaves since 2006 when she rejected advances from a man in uniform.

Death by microwave weapons is every bit as psychopathic as death by vaccine. Perhaps after your review you might address the issues in a Substack article. Perhaps you might encourage activist show hosts to break their silence on the Worldwide Weaponized Holocaust.

Thank you for doing the deep dive into increasing and excessive deaths from all sources. They share in common the need for immediate attention to save lives.

Kris Collis
